RECOMMENDATIONS FOR STANDARDS COMMITTEE APPROVAL:

1. None.

INFORMATION ITEMS

1. John Hogan expressed concern regarding the ILS decision to abstain from participation in the canvass ballot review of BSR/AMCA 500D-98, *Laboratory Methods of Testing Dampers for Rating.* ILS did not receive a positive response from TC 5.1, *Fans*, and TC 5.2, *Duct Design*, for participation in the process. AMCA 500D is referenced in ANSI/ASHRAE/IESNA Standard 90.1-2001, *Energy Standard for Buildings Except Low-Rise Residential Buildings*, and at some time in the future this reference will need to be updated.
